‘Life is pretty simple.
You do some stuff. Most fails.
Some works. You do more of
what works. If it works big,
others quickly copy it.
Then you do something else.
The trick is doing something else.’

Leonardo da Vinci

VOORWOORD

‘Life is pretty simple. You do some stuff. Most fails. Some works. You do more of what works. If it works big, others quickly copy it. Then you do something else. The trick is doing something else’.

Dit citaat van Leonardo da Vinci pronkt op de achterkant van de catalogus die FORMANI® enkele jaren geleden publiceerde. Een citaat dat mij tot op heden inspireert. De kern van deze woorden is tevens terug te vinden in de ziel van FORMANI®. Dit boek is daar een voorbeeld van. Een boek waarin wij op eigen, authentieke manier onze producten presenteren. Eigenheid waar wij trots op zijn. Een boek dat de topkwaliteit van onze producten en onze permanente drang tot innovatie in beeld brengt.

Nieuwe dingen doen, ontwikkelen of ‘doing something else’ zoals Leonardo da Vinci het verwoordt, doen we op verschillende manieren. Zo combineren wij op gedurfde, innovatieve wijze verschillende materiaalsoorten en passen we nieuwe technieken toe.
Ook samenwerken speelt in toenemende mate een belangrijke rol in ons verlangen om dingen beter te doen. Het brengt nu eenmaal nieuwe inzichten met zich mee. Zo gingen wij in de afgelopen jaren partnerships aan met verschillende Nederlandse topdesigners waaronder Piet Boon, Tord Boontje, Mathieu Bruls, Bob Manders en Edward van Vliet. Samenwerkingen die hebben geresulteerd in vernieuwende ontwerpen van topkwaliteit en exclusief en innovatief design.

Werkt FORMANI® op het gebied van productontwikkeling veelal met Nederlandse topdesigners samen, de kracht van ‘a real Formani’ ontgaat het buitenland niet. Steeds vaker zien wij dat onze producten wereldwijd door architecten in interieurconcepten worden toegepast. Langzamerhand wordt duidelijk dat een eenvoudig detail, zoals een deurkruk, in steeds meer landen aan importantie wint. Iets kleins kan daadwerkelijk een groot effect hebben. Zo laten de producten van FORMANI® een interieur samenkomen tot één geheel.

Ik ben trots op onze producten en de samenwerkingen waarmee deze tot stand komen. Ik geniet van de no-nonsense mentaliteit van mijn team. Hun passie en inzet voor alles wat wij doen. Bovenal ben ik dankbaar voor het vertrouwen van onze klanten. Klanten die ons de ruimte geven om te ontwikkelen. Ons de ruimte bieden om onze producten continu te verbeteren, steeds met oog voor functionaliteit en schoonheid. Het citaat van Leonardo da Vinci inspireert mij om te blijven vernieuwen. Inspiratie die dit boek weerspiegelt. Ik hoop dat het ook u zal inspireren. OPEN UP!

Pim Aarts,
Managing director Formani Holland B.V.

PREFACE

‘Life is pretty simple. You do some stuff. Most fails. Some works. You do more of what works. If it works big, others quickly copy it. Then you do something else. The trick is doing something else’.

This quote from Leonardo da Vinci adorns the back cover one of the catalogues of FORMANI® of recent years. And it is a quote that still inspires me to this day. The essence of these words can also be found in the heart and soul of FORMANI® . This book is one example. A book in which we present our products in our own, authentic way. This is a distinctiveness that we are particularly proud of. A book that conveys in pictures the high level of quality of our products and our perpetual drive to innovate.

Doing and developing new things, the ‘doing something else’ Leonardo da Vinci referred to, is something we do in many different ways. We combine different material types and apply new technologies in bold, innovative ways.
Because we recognize that working with others always gives us valuable new perspectives, we embrace the increasing importance of cooperation in our desire to do things better. This is why in recent years we have entered into partnerships with many Dutch leading designers, including Piet Boon, Tord Boontje, Mathieu Bruls, Bob Manders and Edward van Vliet. Partnerships that have resulted in innovative, exclusive and top quality designs.

Though FORMANI® frequently works with Dutch top designers on product development, the strength of a genuine Formani does not go unnoticed abroad. We are seeing more and more of our products being used worldwide by architects in interior concepts. It is slowly becoming clear that appreciation for the simple details, like the perfect door handle, is growing in more and more countries across the world. The little things can have big effects in real life. The products of FORMANI® can make an interior come together as a seamless whole.

I am proud of our products and the partnerships that have made them a reality. I am inspired by the no-nonsense mentality of my team, and the passion and energy they put into everything they do. But most of all, I’m grateful for the trust our clients have placed in us. Clients who have given us the freedom to do what we do. To keep developing and improving our products, always with an eye for functionality and beauty. Da Vinci’s quote inspires me to keep innovating. That inspiration is reflected in this book, and I hope it will inspire you, too. OPEN UP!

Pim Aarts,
Managing director Formani Holland B.V.

DESIGNERS PIET BOON

Piet Boon® is in 1983 opgericht door de internationaal gerenommeerde Nederlandse ontwerper en ambachtsman met dezelfde naam. De internationale designstudio heeft zich ontwikkeld tot een internationaal luxury lifestyle merk met private, corporate en commerciële klanten in 46 landen over de hele wereld.
Piet Boon (1958) begon zijn carrière als aannemer en als ambachtelijk vakman met een voorliefde voor natuurlijke materialen en bijzondere details. Hij ontdekte dat hij zijn visie pas ten volle kon realiseren als hij zich met het totaalconcept kon bezighouden. Al vrij snel verlegde hij bij zijn ontwerpen de focus naar functionaliteit, comfort, tijdloosheid en duurzaamheid. Dit heeft geresulteerd in een internationaal portfolio van klanten en projecten.
In 1986 werd zijn vrouw Karin Meyn (1961) zakenpartner en creatief directeur. Samen geven Piet Boon en Karin Meyn leiding aan een dynamisch en internationaal team van architecten, ontwerpers, stylisten en ambachtelijke vaklieden. Tegenwoordig is Piet Boon® één van de meest spraakmakende Nederlandse designstudio's ter wereld die zich internationaal onderscheidt in ontwerpen voor exterieur en interieur, productdesign voor privéhuizen en corporate en commerciële klanten wereldwijd.
Het werk van Piet Boon wordt al vanaf de oprichting van zijn bedrijf gekenmerkt door een groot technisch inzicht, een scherp oog voor detail en gevoel voor esthetiek. Hoewel het werkterrein van Piet Boon® steeds breder wordt, blijft de focus liggen op de kenmerkende basisprincipes: een combinatie van functioneel, tijdloos design en natuurlijke materialen met bijzondere, onderscheidende details.
FORMANI® is exclusief wereldwijd partner van Piet Boon® op het gebied van hardware en bathware. Voor FORMANI® ontwierp Piet Boon Studio de lijnen 'ONE' en 'TWO'.

Piet Boon® was founded in 1983 by the world renowned Dutch designer and master craftsman of the same name. The international design company has developed to become a global luxury lifestyle brand, with both private, corporate and commercial clients in 46 countries around the world.
Piet Boon (1958) began his career as a building contractor and as master craftsman, with a love for natural materials and signature details. He came to discover that his true vision could not be fully realized unless he took ownership of the total concept. He soon transferred his focus on functionality, comfort, timelessness and durability to his designs. This resulted in a global portfolio of clients and projects.
His wife Karin Meyn (1961) joined the company in 1986 as joint business partner to lead Creative Direction. Together Piet Boon and Karin Meyn steer a dynamic and international team of architects, designers, stylists, and artisans. Today, Piet Boon® is one of the most high-profile Dutch design companies worldwide. Delivering exterior, interior, and product design excellence for residential and corporate clients and commercial partners around the world.
Keen technical insight and an acute eye for detail aesthetics have characterized Piet Boon's work from the launch. Though the areas of design have broadened, Piet Boon® remains focused on its founding principles of marrying functional, timeless design and natural materials with distinguishing signature details.
FORMANI® is exclusive worldwide licensing partner of Piet Boon® for hardware and bathware products. Piet Boon Studio designed the series 'ONE' and 'TWO' for FORMANI®.

DESIGNERS TORD BOONTJE

Tord Boontje werd in 1968 geboren in het Nederlandse Enschede. Hij studeerde eerst industriële vormgeving aan de Design Academy in Eindhoven (1986 – 1991), gevolgd door een Master-opleiding aan de Royal College of Art in Londen (1992 - 1994). Studio Tord Boontje is opgericht in 1996. Tord Boontje woonde en werkte van 1995 tot 2005 in Londen, waarna hij zijn huis en studio inruilde voor een woon- en werkplek in Bourg-Argental, Frankrijk. In 2009 kreeg hij een aanstelling als Professor en Head of Design Products aan de Royal College of Art en sindsdien werkt hij vanuit zijn ontwerpstudio in Londen.

De uitdaging en kans waar de Studio lang naar op zoek is geweest, is een delicate band tussen design en emotie die even toegankelijk als verleidelijk is. Het werk van de Studio is gebaseerd op de overtuiging dat modernisme niet per definitie minimalisme hoeft te betekenen, dat eigentijdsheid niet in strijd hoeft te zijn met traditie en dat technologie geen afstand doet van mensen en van gevoel. In de ontwerpen van de Studio worden harde elementen vaak vervaagd door zachte elementen, waarbij inspiratie wordt gezocht in de natuur en gebruik wordt gemaakt van vele verschillende vormen en lagen om de verbeelding te prikkelen van en emoties op te roepen bij aanschouwers. Deze verwijzingen naar de natuur en naar emotie weerspiegelen echter alleen het eindresultaat en geven niet het ontwerpproces zelf weer. Hoewel het gebruik van technologieën en de eigenschappen van materialen nooit op de voorgrond treden (en altijd subtiel zijn verweven met het uiteindelijke product), wordt toch bewust benadrukt dat de Studio werkt met de laatste productie- en materiaaltechnologieën bij het verwezenlijken van haar visie.
Tord Boontje ontwierp producten voor o.a. Moroso, Philips, Artecnica, Kvadrat en Hewlett-Packard. Twee ontwerpen van hem zijn opgenomen in de collectie van MoMa (The Museum of Modern Art) in New York: Transglass light (1997) en Garland light (2002). Voor FORMANI® ontwierp hij de serie deurbeslag 'FOLD'; een revolutionair ontwerp en bovendien een technisch hoogstandje.

Tord Boontje was born in Enschede, Netherlands in 1968. He first studied industrial design at the Design Academy in Eindhoven (1986 – 1991), and followed this with a Masters from the Royal College of Art in London (1992 - 1994). Studio Tord Boontje was founded in 1996. Tord Boontje lived and worked in London from 1995 to 2005, when he moved his home and studio to Bourg-Argental, France. In 2009 he took up his appointment as Professor and Head of Design Products at the Royal College of Art and continues work at his London-based design studio.

The challenge and opportunity the Studio has long sought is a delicate marriage of design with emotion that is as broadly accessible as it is enticing. The Studio's work draws from a belief that modernism does not mean minimalism, that contemporary does not forsake tradition, and that technology does not abandon people and senses. The Studio's designs often temper edges with softness, take inspiration from nature, and employ a décor of forms and layers to engage and entice an observer's imagination and emotions. But these references to nature and emotion reflect only an outcome, not the process of design itself. Although the use of technologies and material properties is never celebrated (and is always subsumed within the final product), there is nonetheless a conscious insistence that the Studio's work employ the latest production and material technologies in pursuit of its vision.
Tord Boontje has previously designed products for clients including Moroso, Philips, Artecnica, Kvadrat and Hewlett-Packard. Two of his designs are part of the collection of MoMa (The Museum of Modern Art) in New York: Transglass light (1997) and Garland light (2002). For FORMANI® he designed the FOLD' series of door fittings for Formani; a revolutionary design for lever handles and also an impressive technical feat.

DESIGNERS MATHIEU BRULS

Mathieu Bruls werd in 1960 geboren. In 1986 studeerde hij af als architect en stadsplanner aan de Technische Universiteit Eindhoven. In datzelfde jaar richtte hij Bruls en Co op, een bureau met een specialisatie in architectuur, stedenbouw en interieurontwerp. Vandaag de dag is hij nog steeds partner en creatief directeur van Bruls en Co. Inmiddels een toonaangevend bureau, gelegen in het centrum van Maastricht.
Ontwerpen blijven niet langer beperkt tot gebouwen en steden. Mathieu Bruls heeft zich tijdens zijn carrière ook andere ontwerpdisciplines eigen gemaakt. Zo ontwikkelt hij voor M12 en RealSoftShop meubels en autonome voorwerpen. Zijn werk is gepubliceerd in talloze magazines. In 2011 werd er zelfs een tentoonstelling gewijd aan de ontwerpen van Bruls en Co.
Naast creatie is het delen van kennis belangrijk voor Mathieu Bruls. Hij verzorgt lezingen voor diverse onderwijsinstellingen in Europa en doceerde van 1993 tot 2011 aan de Academie voor Bouwkunst Maastricht. Daarnaast neemt hij regelmatig zitting in jury's.
Voor FORMANI® ontwierp Bruls de serie deurbeslag 'EDGY'. Edgy: 'Veel minder kan niet, veel meer hoeft niet'

Mathieu Bruls was born in 1960. In 1986 he completed his studies in architecture and urban planning at Eindhoven University of Technology. In the same year he founded Bruls en Co, a bureau specialising in architecture, urban planning, and interior design. Today he is the creative director and one of the partners at Bruls en Co. The bureau, located in the heart of Maastricht, has grown into one of the leading businesses in its field.
Mathieu Bruls's designs are not limited to buildings and cities. Over the course of his career, he has gathered expertise in a variety of design-related fields. For instance, he has designed furniture and free-standing objects for the Dutch design houses M12 and RealSoftShop. Mathieu Bruls's work has been featured in countless magazines. In 2011 the designs of Bruls en Co were even featured in an exhibition.
Mathieu Bruls also places great value on sharing knowledge. He regularly lectures at various educational institutions throughout Europe; and from 1993 to 2011 he was an instructor at the Maastricht Academy of Fine Arts and Design. He is also a frequent member of juries at competitions.
Mathieu Bruls has designed the 'EDGY' series of door fittings for FORMANI®. Edgy: 'Hardly any lesser, no use for more'.
